**History of Quebec Bridge**  
A history of Quebec bridge and some details of its immense proportions follows:

First idea of the Quebec bridge over the St. Lawrence originated in Quebec in 1810. Estimated cost \$300,000.

A law charter obtained to construct the bridge in 1882, by M. W. Bayly, of Quebec. Company reorganized in 1906 by S. N. Bell, ex-prime minister of Quebec, and began.

Bridge collapsed on August 29, 1907, with a loss of seventy lives. Monetary loss \$6,000,000.

Government government decided to reconstruct bridge, a contract being let to the St. Lawrence Bridge company, April 4, 1911.

Contract was let for the bridge replacement for \$1,500,000. men losing their lives financial loss \$300,000.

The principal dimensions of the Quebec

bridge and length from shore to shore, 3,230 feet; width, 100 feet; height above water 150 feet. Nausheen railroad tracks carried, two; street cars, two, and mails, two. The bridge has a central span 400 feet longer than the Fourchette bridge, which is the world's record.

The total load in the bridge weighs 180,000,000 pounds and cost \$11,000,000. per year will be cut down, by half a day when the bridge is completed.

A tenth of Canada's war pensions is paid to Albertans.

## New Road To Be Formally Opened During Thanksgiving Week.

A largely attended meeting of the Crows Nest Pass Automobile Association was held on Wednesday night for the purpose of arranging to take part in the opening ceremonies in connection with the new road to B.C. via the south shore of Crows' Nest Lake.

A communication from Mr. Ainsworth, inspector of public works, addressed to Mayor Morrison of Colman, was read, and stated that the road would be ready for formal opening after October 5th. It was hoped that the new road would have been opened early in September, but owing to delays occurring in connection with securing crossing easements from the C.P.R., and having to depart from the original survey at one point, the opening could not take place earlier. Mr. Ainsworth suggested that a programme of programmes for the day might perhaps be taken up by the Crows' Nest Pass Automobile Association, in conjunction with the Ferme or other associations in British Columbia who are vitally interested in this improvement of highway.

On motion it was decided that Thanksgiving Day, October 8th, be observed for the opening ceremonies, but that in the event of the Minister of Public Works and his staff not being able to avail of such a holiday date, October the 10th, the following Wednesday, be chosen instead.

The secretary was instructed to communicate with the Ferme and Pincher Creek Automobile Associations immediately the date had been decided upon, asking their attendance and co-operation on this occasion.

It is requested that every auto owner between Pincher Creek and Blairmore should celebrate this event by being present. Arrangements will be made to have some of the good roads authorities of B.C. meet the Alberta authorities at Crows' Nest, where the latter will have an opportunity to get "loaded up" not with horses, as B.C. will be dry, but with ideas as to proper methods of road building, and improvements that may in future be affected to make this inter-provincial highway meet all the requirements of its purpose.

Following the formal opening ceremonies, the visitors will be invited to a grand banquet, which will in all probability be served in Blairmore, when all corn-twisted pedestrians and hobbled auto owners will have an opportunity of relating their myriad experiences before those controlling the public works appropriations of the province of Alberta.

It was suggested that the Hon. Charles Stewart should be invited in custody at Pincher Station and conveyed over the road to Bellevue by the Pincher Creek Association, and that he be given a car that is no respecter of rocks, curves or ditches, and that the local association cars meet the party midway in the Frank slide, where the honorable minister will see to advantage and splendid parking opportunities.

The opening of the new road over the Great Divide marks a new era in the life of the country. We have known of many

cases during the present season where parties who had been informed that the new road had been opened up, turned back from Blairmore on being advised to the contrary, and there is every reason to believe that the opening of an improved thoroughfare will add a great impetus to tourist traffic through the Crows' Nest Pass,—the only natural inter-provincial route to the Western States.

At the meeting on Wednesday night, a committee was appointed to ascertain what accommodation was available, suitable for headquarters for the Crows' Nest Pass Automobile Association, and it is hoped that in the course of another week, Blairmore will have an association headquarters, fully equipped with literature, maps and other information for the benefit of the tourist.

**Two More Soldiers Return**

Sergt. James M. Carter and Pte. J. Doggett returned from overseas by Thursday morning's train and were accorded a most hearty welcome by the citizens of Blairmore who turned out en masse to meet them at the depot.

Both are looking well. The former, who went overseas with the 50th battalion in 1915, has been considerable service and has seen many scenes of real combat, from shell shock received while in action.

The letter went over with the 102nd last year, but failed to qualify for service at the front.

### Red Cross Notes

Our regular weekly meetings will be held as usual during the fall and winter at the home of Mrs. Justice on Tuesday afternoon. The meetings are open to all women and we hope to see a large number present every Tuesday.

A class for those who cannot come in the afternoon is meeting every Tuesday evening at the same place. A very urgent invitation is extended to all women girls who can arrange to help at any hour. Membership in the Society is not necessary. We wish to have as many members as possible, and hope to help in making the supplies. Do not wait for a further invitation. This is a public work and a public duty.

### Presbyterian Selective Conscription

The following resolution was passed at a meeting of the Macdonald Presbyterian held at Lethbridge recently:

"The Presbytery having respect to the crisis in our nation, after careful consideration, directs our national well-being, record their sympathy with the General Assembly in demanding selective conscription of men, wealth, and powers as the effective means of ending the war, and maintaining human liberty."

"They are also in favor of the movement for the establishing of a National Guard, and that the available services and resources of the intervals by the guidance of our officers and the protection of our interests."

"They further heartily recommend all their people to have respect to the patriotic actions of all our fellow citizens and to realize that at a time when the world's food supply is so seriously inadequate to the world's needs, that strict economy and conservation of the available supplies ought to be practiced by all."

More than three hundred thousand American conscripts are now in training.

## Demurrage Rates

Greatly Raised

Sir Henry Drayton Says Traffic

Must Be Speeded Up

Traffic must be speeded up, and coal must be into the country," says Sir Henry Drayton, chairman of the board of trade, at a hearing before the Canadian government for Canada, in a judgment just received at the transportation bureau of the department of commerce, on the question of demurrage. With this object a new set of demurrage rates were introduced by the railway commissioners as follows:

First and second day, free; third day, \$1; fourth day, \$2; fifth day, \$4; sixth day, \$4; seventh day, and all days thereafter, \$5 a day. Suggestively, the railroads say "what ought to release cars quickly."

The present scale allows for a fixed rate of one cent per car per day from the expiration of free time, which varies according to the commodity. The maximum premium was a flat \$3 a day after expiration of free time.

## CHOLERA INFANTUM

Cholera infantum is one of the fatal ailments of childhood. It is a terrible affliction on sudden, especially during the summer months, and unless prompt action is taken the little one may soon be beyond aid. Baby tablets are a sure remedy in warding off this trouble. They regulate the bowels and act as a tonic, and will prevent all the dreaded stomach complaints. Concerning them Mrs. J. E. Ross, South Bay, Ont., says: "I feel Baby's Own Tablets have fit out of my baby when she had cholera infantum, and I would be without them." The Tablets are sold in medicine dealers, or by mail at 25 cents each, from The Lamb, 111 Main Street, Co., Brooklyn, Ont., Canada.

## Peace River Country

Growing

Mixed Farming Becoming Popular, and Grain Acfine Forest in Canada

The Peace River country has received 3,500 settlers this year, the information given by Mr. H. H. Ross, traveller and writer, who passed through the country on his way to coast astern. He says that the settlers are coming in from the west, and one encouraging feature of the development is that farmers are going in to establish their home industry is established in the far north, and is working overime, and the like is true of the grain crop, although Mr. Harris says it is hard to put an estimate on the acreage under crop. The settlers have been prepared to state that the northland wheat will 150,000 acres, the best wheat crop in Canada or the western states.

What this country is capable of producing is shown in a yield in which Sheridan Lawrence, an old timer there, produced last year, His crop of 100 bushels to the acre of wheat, and has just been sold in Winnipeg for \$1.95. This year this farmer, who is a son of a man who promised to yield even better than last year, having 300 acres in wheat, and is now in the market again, and is getting a good price.

There are now 75 organized school districts in the Peace River country and the teacher is now in demand.

He is going to travel through the western states lecturing on his adopted country.

"Did you miss your first husband very much?"

"Not until after I married my second."—London Opinion.

## Helping Disabled Heroes

A Few Facts That Every Disabled Soldier Should Know

That there is no such words as "Impossible" and "impossible" work which the fatherland was carrying on in Poland.

That his natural ambition to earn a good living can be fulfilled.

That he must help himself to offset it.

That the whole object of doctors,

nurses, and instructors, is to help him in doing very thing.

That he must help them to help him.

That he will have the most careful and effectual treatment known to science.

The interesting and useful occupation for the invalids is part of the treatment in convalescent homes, clinics and sanatoria.

He will carry out his first duty by rejoicing his comrades at the front and if there is no light in the lamp of life he is taken home to Canada, as soon as his condition and shipping facilities make this possible.

His strength and earning capacity are not lost, but the highest degree possible through the military hospital commission.

The present scale allows for a fixed rate of one cent per day from the expiration of free time, which varies according to the commodity.

The maximum premium was a flat \$3 a day after expiration of free time.

## Poor Colonizers

German Kultur Does Not Take Well in Poland

Up to some months ago the German press was continually boasting of the great colonization work which the fatherland was carrying on in Poland.

Recently, however, it has been said by some more candid writers as to the effectiveness of German policy, that the results of the work done, such that serious alarm has come even in reactionary circles.

Germany's eyes are evidently open to the conditions in Poland by the arrest of Gen. Pilsudski, the leader and founder of the Polish Legions.

It is alleged that he was organizing the "Folkish" army for war against the central powers.

In consequence of the arrest all the offices of the government have resigned, and they have been succeeded by others.

## Will The C.P.R. Grant Daylight Service

Within a month the new winter sched-  
ule of the C.P.R. passenger trains will go  
into effect. At present, the company can-  
not start the B.C. trains because of the  
request that daylight service on the  
Crow be instituted for the winter months,  
but in our opinion there should be no  
delay in making the request. We have  
been told the company is unable to make  
the arrangements for a daylight service on the  
west line, but just before the service was  
to go into effect, the C.P.R. has withdrawn  
the service and the service is cancelled.

It is our opinion that the C.P.R. owns  
the towns between Lethbridge and Fernie  
a better train service than it is now pro-  
viding. These towns have been brought  
into being by the C.P.R. They are the  
lives of industry now that the miners are  
working again, and a matter of train  
service deserves some consideration  
out of fairness to the inhabitants of the towns  
of the valley who have been forced to  
go to the C.P.R. for supplies and services  
and the service is cancelled.

It is true that the C.P.R. has the excuse  
that the government is cutting down  
its expenses in other parts of the country.  
This is true, but the restriction is en-  
forced in those parts of Canada where  
competition for business has led the rail-  
way companies to grant a better service  
than the traffic demands. Such an argu-  
ment could not hold in the case of the  
Crow line, however.

The C.P.R. has done Lethbridge  
a great service in maintaining the night train  
and keeping open the service between Leth-  
bridge and Okotoks. The people of Le-  
thbridge appreciate it. Just so would the  
appreciate a daylight service on the Crow  
line. —Lethbridge Herald.

## Betting on Earl Kitchener's Death

New York, Sept. 13.—A special cal-  
ogram to the New York Sun says:

"At Lloyd's, where insurance brokers  
are gathered, it is known that a special  
policy was issued recently insuring that  
Lord Kitchener would remain dead at  
a premium of five shillings per hundred  
pounds. Hundreds of persons are flock-  
ing to take out similar policies."

"Our information is that widespread  
belief that Lord Kitchener is alive, and  
caused a flurry of applications, many of  
which offered a higher premium. More  
than £1,000 worth of such insurance has  
been issued from a single firm, the  
agents including army, navy, profes-  
sional and business men."

## Forge Opening Up Of B.C. Lands

Vancouver, Sept. 14.—That many  
thousands of acres of stable land in  
northern British Columbia are being held  
by a few individuals or companies, and  
that it is time for the provincial government  
to institute a system to bring down the price  
at the next session with the object of opening  
up the lands for settlement, was  
stated by Hon. J. W. Wear, speaker of  
the legislature at the opening last night  
of the Central Park Agricultural Exhibi-  
tion.

"If the owners hold the land for spec-  
ulative purposes," he said, "the govern-  
ment would have to institute a form of tax  
on the land which would force the owners  
to sell it at a reasonable price. It may  
be made at any time."—Montreal Leader.

Doies.—Six months residence and culti-  
vation are required to obtain title to land  
under the homestead act. A homesteader  
may live within nine miles of a  
settlement, provided he has a house in  
a ten-mile radius.

Land may be substituted for cultivation  
under certain conditions.

It is recommended that a homesteader in good  
standing may present a counter-claim along  
the lines of the homestead act.

Doies.—Six months residence in each of three  
years is required to obtain title to land  
under the homestead act. A homesteader  
may live in a town or city, or in a  
settlement right along a road or stream, in fact  
anywhere, provided he has a house in  
a one-mile radius, and has a garden plot  
one acre in size.

## Sub. Warfare Going In Favor of the Allies

London, Sept. 13.—Via Reuter's Out-  
look Agency, London, England, British naval  
authorities, Reuter's have received the  
following information:

"Despite talk in certain quarters, there  
is no reason to believe, that there ever  
was a truce in Europe, but the German  
Government has been training its men  
for battle since the beginning of the war.  
Nobody claimed that the enemy had been  
overcome, but people should not, because  
of that, blindly believe all Germany  
is already at an end, and we wish to  
correct any misapprehension there  
may be in this regard. By application

## Keeping Work At Home

\* \* \*

Distant pastures always look the greenest, and many buyers of printing are often fooled just as much when they buy product from a distance, as when the land prospector forms a resolution to buy from a glance at distant fields.

Why do merchants and manufacturers go from home with their printing orders? Why should they aid in the building up of other communities when their own section is in need of support and encouragement? These are problems that will not admit of a simple answer.

The distant printer's salesman visits a town and finds that many merchants, bankers, lawyers and manufacturers there are buying their stationery in small quantities at reasonable—not to say low—prices. He at once takes price and quantity—that is, price on large quantities. Where the buyer has been ordering a single thousand copies of a job at, say \$1.00, the salesman from the distant city quotes for \$5.00 or 10,000 at about half this price, and the chances are that his samples are of a quality and finish superior to that which would be used in the execution of an order.

Should the local business man consult the home printer and talk the matter over freely with him, instead of rushing to the conclusion that the local printer had been "robbed me right along," he would generally find that in quantities he could buy just as well and often to better advantage by turning his work over to the home industry. Besides, he would be doing something towards circulating money among his fellow townsmen and enabling them the better to support him in return.

We believe there are very few buyers of printing nowadays who are utterly indifferent to the success of their fellow, especially those who have a "local habitation and a name" among them. As a rule they congeal the printer's right to a fair profit, provided always they can be assured of a square deal.

By order of the council,  
F. WRIGHT,  
Secretary-Treasurer

Rev. Hindley Will Lecture

The public will be pleased to know that arrangements are being perfected to have Rev. Capt. W. J. Hindley, the man who electrified the Cranbrook people during the Chautauqua week, with his great lecture on "The Reign of the Common People." Deliver a series of ten lectures in this district and in the neighboring towns in furtherance of the principle of "Win in the War." It is sought that political partisans be entirely eliminated, and that the one thing to be kept in view should be the sinking of every "ism" in the one vital, moving idea now dominating the earth, the utter uprooting of German militarism, which is holding us in our American continent, north or south of the international boundary, who can better enthuse an audience than Rev. Captain Hindley. He has now, devoted himself to the Canadian recruiting campaign and has proven himself a tower of strength to those who were associated with him.

Now that conscription is the law of the Dominion, it needs only to

be said that the necessity from which it sprang rests on a foundation not of party, not even of Dominion or Imperial politics, but on the fundamental laws of wide humanity, the right of man to be free within the margin of honorable human rights, without fear of the dominions of king or kaiser, of soldier or any autocrat. It is part of the struggle of democracy. To this struggle the Rev. Captain Hindley will give his tremendous aid. We ask the supporters of the public in this matter and in so doing ask them to assist themselves and their movement to a larger and a brighter day—Cranbrook Herald.

W. Cole went to Calgary by Sunday night's train.

Mrs. E. Rosaly came in from the south on Wednesday last.

The social held in the church on Tuesday was well attended.

Mr. and Mrs. Fred Chappell are visiting friends in Calgary.

Tre Taylor, of Wain, Alta., is visiting with Mrs. D. Morris.

T. M. Burnett is on a business visit to Edmonton this week.

Mr. Hugh Hutton has returned home from a visit to Calgary.

Mr. A. Hallworth, who has been visiting at Fortsberg, returned home on Sunday last.

Mrs. W. Waru and family left this week for the coast, where they will spend a few weeks.

Pte. Jarrel Evans landed home from England by Thursday morning's train. He was a member of the 192nd.

Mr. Radcliffe, former member of the R.N.W.M.P. detachment here, is visiting for a few days with William Fisher.

From reports current, it appears that Bellevue is to have more than a picture-show house in future; several parties already arranging building plans.

D. Davidson and party returned home from North Fork on Sunday last, having been successful with fish. They report seeing Barlett at the North Fork, suffering from oldmaitis in the left knee.

Local Oddfellows are boasting for the big draw to be held in the Blairmore opera house on October the 12th. Tickets will be had from Herbert Baslane, secretary; other members of the local hall or an application to W. J. Bartlett at Blairmore. Don't miss it, as this will be the biggest event of the season.

Bellevue's business section is fast rising from the ruins and very soon one would hardly believe that down anything the worse for having been swept by fire. The ditch over which the old bridge was being filled in, and in order to complete the job, the work is being thrown through the bluffs near the school, through which it is contemplated grading a road which will be somewhat straighter and will enhance the appearance of the business street. The material to be moved by this grading will be dumped into the ditch near the old bridge.

At 9 o'clock on Tuesday morning, September the 18th, a carriage of unusual interest took place in St. Cyril's H.G.C. church, Bellevue, when the pastor, Rev. P. J. N. Conman, sang a solemn requiem high mass, the occasion being the eighteenth anniversary of the death of his son assassinated in the sanctuary by the Rev. Fathers L. Pilon, O. M.I., as deacon, and F. Boylek as master of ceremonies. This is the first time a solemn requiem high mass has ever been sung in this part of the country and was greatly appreciated by the large congregation who assisted at it.

On receipt of their pay at Fernie on Saturday, the miners took exception to what they deemed too large deductions for provincial tax and patriotic fund. They held a special protest meeting and refused to resume work until the patriotic fund deductions were returned. The patriotic committee held a special meeting and agreed to refund the money deducted for the period ending August 31 and make no further deductions on account of the patriotic fund from miners, and work resumed on Monday. Ferrie miners have been contributing about \$1,000 a month. The main objection is stated to be owing to the government's \$5 poll tax re-enacted at the last session, but they could not insist on the return of this money, so they adopted the line of least resistance and attacked the patriotic contribution.
